

CITY OF ELMHURST

Map Amendment Application Packet

PROCESS OVERVIEW

A request for a Map Amendment typically takes three to five months for review. The process includes a pre-application conference, submittal of the application and associated documentation, a comprehensive review of plans by all City Departments, legal notice distribution, posting of public hearing sign and the notification period.

The Zoning and Planning Commission will conduct a public hearing for all Map Amendment requests. A subsequent meeting of the Zoning and Planning Commission is held to deliberate and recommend approval or denial of the Map Amendment application.

The Development, Planning and Zoning Committee (DPZ) of the City Council then considers the Zoning and Planning Commission recommendation. The DPZ composes a separate recommendation to the City Council.

Finally, the request will go before the full City Council for consideration of the DPZ report and an ordinance to grant the request. This overview is provided only as a summary of the Map Amendment request process. This full packet contains specific information about requirements and expectations for each step in the Map Amendment process.

PRE-APPLICATION MEETING

Applicants are encouraged to consult with City of Elmhurst staff on proposed requests for a Map Amendment permit before submitting an application. Staff is available by appointment at the Community Development Department Monday through Friday from 8:30 a.m. to 5:00 p.m.

This conference will provide the petitioner with an opportunity to present a general concept to staff of the Map Amendment to be requested. This will also allow the Community Development Department staff to determine what items will be required for submittal of the formal application, and to suggest any necessary adjustments to the request. This step is very important in order to save time, effort, and expense throughout the rest of the process.

COMPLETE APPLICATION SUBMITTAL

The applicant must submit a complete application to the Community Development Department to start the Variation process. The application can either be submitted electronically or on paper. Applications should be submitted at least 45 days prior to the expected public hearing date.

The following items and information are a part of the Map Amendment application:

- 1) Completed Map Amendment application with authorized signatures
- 2) Responses stating how the Map Amendment standards contained in Section 22.25 of the Elmhurst Zoning Ordinance, have been met
- 3) Project Impact Statement, which addresses detailed reason(s) or need for the Map Amendment, in addition to how the proposed Map Amendment is not detrimental to the public interest
- 4) Existing zoning on the subject property and within 500 feet of the site
- 5) Proposed zoning classification
- 6) Proposed land use, supplemented by a site plan and/or elevations for proposed development, if applicable (if paper submittal 1 folded copy no smaller than 11" x 17")

- 7) Satisfactory evidence of ownership by affidavit, contract purchase, or disclosure of beneficial trust, showing all persons or entities having an interest in the property
- 8) Current plat of survey showing lot lines, any buildings on the property and legal description of the subject property (if paper submittal 1 folded copy no smaller than 11" x 17")
- 9) Photographs, traffic study, parking study or other materials as requested by City Staff
- 10) \$6,500 Map Amendment application fee, made payable to the City of Elmhurst.

Each Map Amendment application is distributed to various City Departments: Building, Engineering, Fire, Police and Public Works for comment. The Planning, Zoning and Economic Development staff will forward any comments to the applicant generated from this review.

The applicant is responsible for responding to any and all issues derived from the City's review. This internal process is intended to allow City Staff the ability to review, discuss and resolve site problems and more directly communicate the City's requirements to developers, residents and others. By identifying the applicable codes and ordinances through this process, costly delays from oversights or incomplete applications may be avoided.

After the application has been submitted and all City issues, if any, have been addressed the case will be placed on the next available Zoning & Planning Commission agenda.
